Technology Services

Do you have a Computer running Slow or a Virus Detected?

Is Spam filling your inbox and you just wanted to hear from the grandkids?

Starting a new business and in need of POS systems, a website or marketing materials to get the word out?

***We are industry trained professionals, with over
15 years of computer experience and 20 years of customer service excellence.***

We are also Microsoft and Dell Certified technicians.

Computer Repair / Technology Integration

- Computer Performance Optimization: if your systems running slow, we can clean it off and increase the processing speed. We can also give you options for additional changes to correct poor performance and expel viruses.
- We can configure your system for new peripherals and applications to communicate with your family. From New printers to that DVD or Blu-ray you got for your birthday, we can get you set up.
- Create a media library of all your family photos, videos and music. Share it amongst computers, smartphones and game stations, keeping the originals locked away to preserve their quality.
- Stream videos, music and family photos to laptops and televisions simultaneously throughout the house without getting fingerprint on the original or risking tares and water damage from mishaps.

Custom Multimedia system creation

- We can scan, digitize and convert all your music, photos and VHS tapes in to media server for the entire household. Keeping the originals safe and sound; while making all the media available to stream for your entertainment.
- Custom media server preserve the original quality makes everything available for use while protecting your original investment for many years to come.
- File conversion is cost effective and our prices are budget friendly.
